

移動式烹飪組合

MOBILE COOKING STATION

UNICHEF
The live kitchen

MOBILE REFRIGERATED CABINET

- Model: KL-MRC
Size: 840(W)*915(D)*1540(H)mm
Total Power: 0.5KW
- Silent pulley, anti-collision apron around the bottom of the cabinet
 - Built-in handles for easy movement
 - Intelligent control system, electronic display screen
 - Auto defrost system

2-ZONE INDUCTION HOB

- Model: MK-OCTA-2B
Size: 400(W)*630(D)*220(H)mm
Total power: 4.8KW
- German SCHOTT black glass-ceramic panel
 - Automatic identification of material of cooking equipment
 - With bridging function, two furnace plates work together and heat evenly
 - Over 90% thermal efficiency

INDUCTION WOK

- Model: MK-WOK
Size: 400(W)*630(D)*220(H)mm
Total Power: 3.5KW
- German SCHOTT black glass-ceramic panel
 - Automatically identify if the pot material is available with timer shutdown function
 - Safe shutdown in case of overheating and 2 hours of no working
 - Over 90% thermal efficiency

MOBILE HEATED CABINET

- Model: KL-MHC
Size: 840(W)*915(D)*1280(H)mm
Total Power: 1.3KW
- Silent pulley, anti-collision apron around the bottom of the cabinet
 - Built-in handles for easy push
 - Intelligent control system, electronic display screen
 - Anti-overheating device

GRIDDLE

- Model: MK-TPYK-2B
Size: 400(W)*630(D)*220(H)mm
Total Power: 6KW
- 3-speed low temperature thawing function, 52°C, 75°C and 92°C
 - Timed shutdown function, safe shutdown in case of overheating and 2 hours of no working
 - Over 90% thermal efficiency

TEPPANYAKI

- Model: MK-TPYK-4B
Size: 700(W)*630(D)*220(H)mm
Total Power: 6.9KW
- 3-speed low temperature thawing function, 52°C, 75°C and 92°C
 - Timed shutdown function, safe shutdown in case of overheating and 2 hours of no working
 - Over 90% thermal efficiency

FRYER

- Model: MK-FYR
Size: 400(W)*630(D)*220(H)mm
Total Power: 6KW
- One piece punching stretch forming
 - Auto temperature control
 - Over temperature protection, manual reset

PASTE COOKER

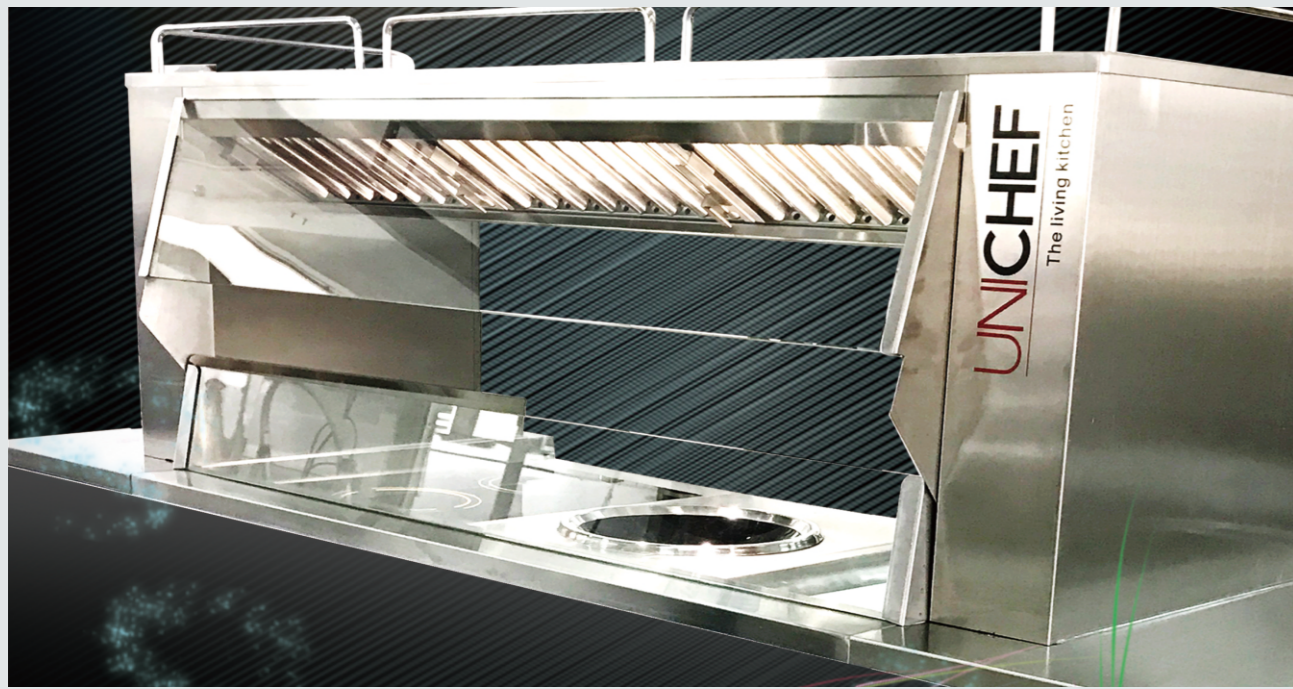

- Model: MK-NDBR
Size: 400(W)*630(D)*220(H)mm
Total Power: 4.5KW
- Water shortage protection device
 - Three gears of fire adjustment

UNICHEF is a plug & play mobile cooking station. It is compact and flexible, it not only saves space but also makes a variety of cooking combinations as needed. At the same time, it offers a more convenient and environmental friendly way of emitting grease fumes. Compared to traditional kitchen ventilation, UNICHEF's unique exhaust system makes it more flexible and enjoyable on a practical basis.

HIGH-EFFICIENCY 5-STAGE FILTRATION SYSTEM:

- 1、 Front twister oil filter
- 2、 HEPA Filter
- 3、 Electrostatic processor module
- 4、 Columnar activated carbon filter
- 5、 Water mist cooling module

When cooking, its unique structure makes the smoke and fumes to be sucked into the filtration process, front twister oil and HEPA filtration process, thereby greatly eliminating grease and smoke particles of 10μm and above with efficiency up to 95%. Fine particles and fumes will be completely removed by high-voltage electrostatic processor and UV photolysis. The odor of the fumes will be absorbed and filtered by columnar activated carbon and water mist deodorization filter, and finally discharged with purified air. The unique 5-layer high-efficiency filtration and purification system makes it possible to remove and purify grease and smoke particles without any connection to an exhaust ductwork system.

SPECIFICATION

MODEL	RRHS-2	RRHS-3	RRHS-4
Basic configuration	High-efficiency filtration system Intelligent control system Flow rate design on demand Canopy style optional Multi storage cabinets optional		
Filtration system	Front twister oil filter HEPA Filter Electrostatic processor module Columnar activated carbon filter Water mist cooling module		
Table height	850mm		
Pulley	4 universal pulleys, 2 pulleys with brakes; Φ75mm, 200KG payload, bottom height 100mm		
Material	SUS304		
Qty. of cooking appliance	2	3	4
Max. dim of cooking appliance (L*W*H):	400*630*220		
Dim (L*W*H)	1500*760*1400	1900*760*1400	2300*760*1400
Table dim (L*W*H):	820*630*220	1220*600*200	1630*600*200
Qty. of socket	2 x 220V/ 2 x 380V	3 x 220V/ 3 x 380V	4 x 220V/ 4 x 380V
Power load	380 V, 50 Hz	380 V, 50 Hz	380 V, 50 Hz
Power consumption	9 kW	12 kW	16 kW
Extra socket	2 x 220V		
Lighting	Led spot light, 2W, 4000K		
Glass	Attachable tempered glass		
Guard bar	Guard bars on the front and two sides		
Material of bottom panel	Stainless steel		
Control panel	Status monitor and safety monitor		
Storage space	On the top, working table and two sides of the cooking unit
